Our investment ecosystem is not only a place for you to invest in financial assets but a place for you to learn, explore, and connect with other like-minded investors. We are an award-winning, multi-asset broker registered in London, UK, with several years of market experience, operating in 172 countries.

OUR SERVICES

Focal Point Limited is an international company that operates in the field of investment and exchange of funds. Thanks to a diversified portfolio of investments, we can generate stable profits and provide high returns for our investors.

Our staff consists of professional crypto traders who carry out deals on popular and reliable cryptocurrency exchanges. Our specialists constantly monitor the market of blockchain products, which allows them to invest in promising coins and projects that can bring high returns in a short period. At the same time, our company operates with already proven coins, which have shown stable growth for several years. The predictability of these assets allows our specialists to perform operations with these instruments in a semi-automatic mode.

CRYPTO TRADING

Cryptocurrencies (Crypto) are virtual monies that are built on a Blockchain that typically use a decentralized network to carry out secure financial transactions. Crypto Trading involves speculating on its price movements via a spread betting or CFD trading account or buying and selling the underlying coins via an exchange. With Grant's investment plan, you are provided the benefits of trading in Crypto without owing any risk.

Agriculture

Focal Point Limited an innovative digital platform that gives everyone the opportunity to engage in Agribusiness anytime and on the go and fund farms thereby facilitating trades of agricultural commodities.

CRYPTO MINING

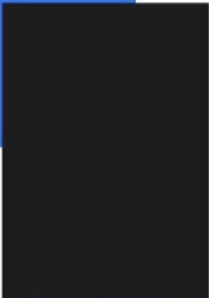

With a 2,000-square-foot warehouse in Singapore and a secondary facility in Hong Kong, we are equipped to handle large crypto-mining operations.

Unlike paper money, Bitcoin and other cryptocurrencies are produced mathematically and held digitally. The people who voluntarily offer their computing power to secure these cryptocurrency networks are called miners. Cryptocurrencies don't have a central government or other so-called middlemen that decide about the future of the system.

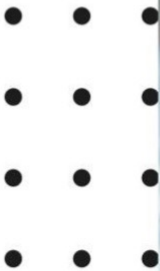

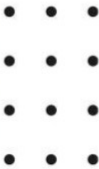

Real Estate

Real estate investing, even on a very small scale, remains a tried and true means of building an individual's cash flow and wealth. Improvement of realty property as part of a real estate investment strategy is generally considered to be a sub-specialty of real estate investing.

Stock & Commodity

These markets allow sales and purchases of stocks and other financial products such as commodities and futures. Almost everyone should own stocks. That's because stocks have consistently proven the best way for the average person to build wealth over the long term.

OUR MISSION.

Our mission is to add value with active portfolio management to help our clients reach their long-term financial goals. We achieve this through our investment strategies, adhering to our values and investment principles, and offering employees a challenging and rewarding place to build a career.
